

HBR Clambake
July 18, 2018

Mahogany Clams (unlimited)
will be served this year !

Please note: RED TIDE is a natural occurrence in the form of an algae bloom that sometimes occurs in the waters from which **MAHOGANY CLAMS** are harvested. The clams filter this algae that can be harmful to humans. The Maine Dept. of Marine Resources monitors the water for this algae bloom and when they deem necessary they close the clam beds for all production and reopen when the clams are safe for human consumption. If the clam beds get closed during our bake the result will be (1 1/2) ~ one and a half dozen of steamed Little Neck clams per person will be given.
